We shall ask the Washington conference to take this consideration into account."

THROW BOMB
BUT NOT IN

(By Associated Press) NEW YORK, Dec. 20.—Damage estimated at \$5,000 was done by the explosion of a bomb when thrown or placed in the hallway of a building on Grand street today. The scene of the explosion was only a block from Police headquarters and the concussion gave officers there a scare as some of them believed for a few minutes that the threats to bomb Wall street had been carried out.

COLLINS AND
DE VALERA ARE
TREATY FOES

(By Associated Press) DUBLIN, Dec. 20.—It was announced that Arthur Griffith, head of the Sinn Fein delegation which signed the Anglo-Irish treaty would move in the Dail Eireann today for a vote on the question approving the treaty while De Valera would move its disapproval.

LONDON, Dec. 20.—The first day of public debate in the Dail Eireann on Griffith's motion to ratify the Irish peace treaty made somewhat of an unfavorable impression upon the majority of the English correspondents in Dublin, their dispatches indicate, but none of them takes the view that the treaty would be rejected.

DUBLIN, Dec. 20.—Deputy John Mirroy, speaking in the Dail Eireann in support of the Irish peace treaty, demanded and received from De Valera and other opponents their promise to submit the question of the ratification to a vote of the Irish people.

DUBLIN, Dec. 20.—A private session of the Dail Eireann was held late this afternoon, and was devoted to discussion of the position and resources of the Irish Republic army in the event the Anglo-Irish treaty is rejected, it was understood after the session.

HARDING DOES
NOT INCLUDE
JAPAN PROPER

WASHINGTON, Dec. 20.—President Harding, it was said at the White House, does not regard the quadruple Pacific treaty as covering the principal islands of the Japanese empire. This view, contrary to that voiced repeatedly by the official spokesman of the American delegation, was described at the White House, the president's personal opinion, and not based on consultation with other members of the administration.

Harding was said to believe the treaty no more applies to the islands constituting Japan proper than it does of the mainland of the United States. In his view, it was said, the agreement only covers the island possessions in the Pacific while the main Japanese group occupies the position of a party to the treaty, rather than of a possession.

SESSION IS
REQUESTED ON
SUBMARINES

WASHINGTON, Dec. 20.—The British delegation has formally asked that a plenary session of the conference be held tomorrow or Thursday in order that Great Britain may present its case for the abolition of the submarine. A British spokesman discussing the submarine tenancy question declared that unless an agreement was reached on that point all that had been accomplished toward naval limitation might be wiped out.

He recalled that the agreement reached by the United States, Great Britain and Japan regarding the naval ratio for capital ships contained upon a satisfactory supplementary agreement in regard to the French and Italian naval ratio which he said so far had not been had.

SOLDIER WITNESSES
NOT CERTAIN ABOUT
TRIALS BEING HELDLEASERS ON
BUCKHORN GET
GOOD VALUES

A trial shipment of three tons of ore was made a few days ago from the Buckhorn property in Stevinson valley that brought a settlement of \$389 a ton in silver. The property is being operated under bond and lease by Marty, Willard and Monahan, and the showing of the 160-foot level warrants the prediction that a heavy production will shortly be in order.

One of the soldiers charged by the defense, was tried for assault of a French girl by a French court martial at which one American officer was present. Taylor gave the name of the soldier and said he was a sergeant from Boston, but the committee decided to omit the name from the records. Robert A. Harris, son of Wilmington, N. C., testified that in 1917 he witnessed the execution in France of a soldier, the victim, a Mexican from El Paso, at Eagle Pass, Texas, was charged with a crime against a woman and not tried. "I was told the man had to be hanged to save some officer from being cashiered," Harris declared.
